Pre-Test Preparation Strategies

Excellence begins before you ever read the first word of a passage. Implement these preparation strategies:

★ The Night Before: Optimization Protocol ★

- **Adequate Rest:** Sleep 8–10 hours—a well-rested brain reads faster, focuses better, and remembers more.
- **Light Review:** Skim the test strategies in this book briefly, but avoid heavy cramming that creates anxiety.
- **Mental Preparation:** Picture yourself reading each passage with calm focus and understanding every question.
- **Materials Ready:** Lay out your pencils and any permitted materials the night before so the morning is smooth.
- **Positive Mindset:** Remind yourself of all the passages you have read and all the skills you have practiced.

★ Test Day Morning: Peak Performance Routine ★

- **Nutritious Breakfast:** Feed your brain with protein and whole grains—it needs energy to read and think.
- **Arrive Early:** Give yourself extra time to settle in comfortably without any rushing.
- **Positive Self-Talk:** Say aloud: "I am a strong reader. I am prepared. I am ready!"
- **Deep Breathing:** Take three slow, deep breaths to calm any butterflies before you begin.
- **Focus Forward:** Think only about the passage in front of you, one question at a time.

During-Test Strategic Techniques

Once testing begins, these strategies will maximize your reading performance:

Read the Passage	★ Read the whole passage first ★ Underline important details ★ Think about the big idea
Read the Question	★ Find the key words ★ Decide what is being asked ★ Go back to the text for clues
Find Evidence	★ Locate supporting details ★ Use context clues for words ★ Point to proof in the text
Answer Carefully	★ Eliminate wrong choices ★ Use text evidence to decide ★ Write clearly and completely
Move On Confidently	★ Celebrate your progress ★ Stay focused and steady ★ Tackle the next one!
