1) As it is used in paragraph 4, what does the word *document* most nearly mean?

(A) to erase a mistake completely
(B) to record information in a careful way
(C) to divide supplies among a group
(D) to guess at an answer quickly

Use the article "Students Who Surveyed the Tidepools" to answer this question.

2) Which statement best expresses the central idea of the article?

(A) The article mostly explains the team's daily routines and gives only brief attention to how the project adjusted over time.
(B) Careful research and revision helped a tidepool biodiversity survey become a useful community project.
(C) The article describes a community effort whose success depended more on a single decisive moment than on the broader pattern of testing and revision.
(D) The article focuses on the project's final outcome and suggests that earlier setbacks had little effect on what the team eventually achieved.

Use the article "Students Who Surveyed the Tidepools" to answer this question.

3) Which detail best supports the idea that the team improved the project by studying a problem carefully?

(A) The project began after students identified a local need in the community.
(B) Students and volunteers worked together throughout the project.
(C) The team studied the weakness and then placed clearer signs and posted student guides near the trail entrance.
(D) The finished project later provided a useful result for the community.

Use the article "Students Who Surveyed the Tidepools" to answer this question.

4) How does paragraph 3 contribute to the structure of the article?

(A) It compares two unrelated projects in different locations.
(B) It introduces the setting of the project for the first time.
(C) It summarizes the article's conclusion before any evidence is given.
(D) It presents the setback that leads to the revision described later.

Use the article "Students Who Surveyed the Tidepools" to answer this question.

5) Why does the author include details about the team's routines in paragraph 2?

(A) To show that the team worked in an orderly way from the beginning
(B) To show that the project depends on repeated steps and collected evidence
(C) To emphasize how much time and effort the project required
(D) To foreshadow that the project will face a challenge later

Use the article "Students Who Surveyed the Tidepools" to answer this question.

6) Which sentence best explains how the article develops the topic?

(A) It describes two different community problems and explains how each was solved by a different team.
(B) It presents the final result first and then goes back to explain how the project originally started.
(C) It compares two competing approaches to solving the problem and argues that one is clearly better.
(D) It introduces a project, explains its process, describes a problem, and shows a revised solution.

Use the article "Students Who Surveyed the Tidepools" to answer this question.

7) What can the reader most reasonably infer about the team members?

(A) They set strict deadlines and follow them even when observations suggest a different path.
(B) They respect careful work but usually wait for an outside expert before changing their plan.
(C) They are willing to revise their work when the evidence shows a problem.
(D) They treat each setback as proof that the original idea was wrong and start over from the beginning.

Use the article "Students Who Surveyed the Tidepools" to answer this question.

8) Which option is the best summary of the article?

(A) A community project started strongly, met no serious difficulty, and ended with a steady result.
(B) A community project ran into trouble, moved on without changing its plan, and still produced a useful outcome.
(C) A community project spent most of its time planning, finished one stage, and left the main problem for another group.
(D) A community project faced a challenge, improved through research and revision, and eventually produced a useful result.

Read the story and the poem. Then answer questions 9–16.

22) **This question has two correct answers.** Choose the **two** sentences from the article that **together** best support the idea that urban beekeeping benefits both people and the environment.

(A) "Rooftop hives and community apiaries now sit alongside water towers and antenna arrays in dozens of metropolitan areas."

(B) "Community gardens near urban hives have reported noticeably higher yields of tomatoes, squash, and peppers."

(C) "Most cities now require registration and set rules about hive placement, usually demanding that hives face away from sidewalks and sit at least fifteen feet from property lines."

(D) "Critics worry about the risk of stings and allergic reactions."

(E) "As more people learn to care for bees, they also begin to notice which plants bloom, when seasons shift, and how small creatures shape a whole neighborhood."

Use the article "How Urban Beekeeping Helps Cities" to answer this question.

23) Which sentence best summarizes the article?

(A) Urban beekeeping has spread because residents want local honey and more rooftop projects in their neighborhoods.

(B) Urban beekeeping supports pollination, food production, and environmental awareness despite manageable challenges in city settings.

(C) City beekeeping programs should expand only after officials can eliminate safety risks for nearby residents.

(D) Training new beekeepers is presented as the article's main concern because careful hive management is the key issue in cities.

Read the selection and choose the best answer to each question.

Priya wrote an informational essay about the importance of sleep for middle school students. Read Priya's essay and look for revisions she needs to make. Then answer the questions that follow.

Middle Schoolers Need Better Sleep

(1) Most middle school students need nine to eleven hours of sleep each night. (2) Doctors say that sleep helps the brain move new information into long-term memory. (3) Sleep also supports attention, mood, and healthy growth. (4) My little brother lines up his soccer cleats by the door every night.

(5) Unfortunately, many students do not get enough rest. (6) Homework, sports, and screens all compete for evening time. (7) Some students stay up past midnight and then drag themselves through first period the next morning.

(8) Small changes can help. (9) Leaving phones outside the bedroom, turning off bright lights an hour before bed, and keeping weekend and weekday schedules close together all make a real difference. (10) With steady routines, students often find that mornings become easier and classes feel less blurry.

24) Which sentence should Priya remove from the **first** paragraph because it does not support the main idea?

(A) Sentence 1
(B) Sentence 2
(C) Sentence 3
(D) Sentence 4

Use the essay "Middle Schoolers Need Better Sleep" to answer this question.

25) What is the **best** way to combine sentences 5 and 6?

(A) Unfortunately, many students do not get enough rest because homework, sports, and screens all compete for evening time.
(B) Students do not sleep well, and homework is hard.
(C) Rest is missed; evenings are busy.
(D) Many students skip dinner and go to bed late because of screens.

Use the essay "Middle Schoolers Need Better Sleep" to answer this question.

26) Priya wants to add a transition at the beginning of paragraph 3. Which sentence would **best** serve this purpose?

(A) Fortunately, small changes can make a big difference.
(B) For example, many students drag themselves through first period after a late night.
(C) In the same way, phones and bright lights often fill the evening hours.
(D) As a result, every student should follow exactly the same bedtime.

Use the essay "Middle Schoolers Need Better Sleep" to answer this question.

27) Which sentence would be the **best** closing sentence for Priya's essay?

(A) Many people like late-night television shows on the weekend.
(B) With better routines and fewer late-night distractions, middle schoolers can claim the steady sleep they need to learn and grow.
(C) Sleep is sometimes discussed at the doctor's office.
(D) People live in many different kinds of houses.
